ABHISHEK POWADE

React Native Mobile Developer

📞 +917972168211　@ abhishekpowade@gmail.com　🔗 Linkedin　🔗 Profile　📍 Pune, India

KEY ACHIEVEMENTS

✔ **EdTech Mobile Application Success**
Developed and optimized an EdTech mobile application, **achieving over 500K+ downloads** and improving performance metrics **by 30%.**

SKILLS

React Native	JavaScript (ES6+)	Java
TypeScript	React Hooks	Git	API
WebSockets	React Navigation	CI/CD
Redux	Context API	Debugging
Android Studio	Xcode	GraphQL
Reanimated	Push notifications (FCM)	
Optimization	Jest	Firebase	IOS
App Store	Play Store	Deep Linking
React DevTools	Offline Storage	Agile
React	Android	State Management
Version Control	Testing	Offline
SQLite	AsyncStorage	React Query
Swift	Kotlin	UI/UX	SDKs
Native Modules	Third-Party Integrations	

PROJECTS

EdTech Application

📅 12/2023 - Present

EdTech Mobile/Web Application (React Native CLI and React Native Web)

- Built a cross-platform educational app with offline functionality, improving accessibility and user retention. Optimized performance by 30%, contributing to 500K+ downloads.

Healthcare Application

📅 06/2023 - 08/2023

Healthcare Mobile/Web Application (React Native Expo)

- Designed and integrated a healthcare solution with ABHA, ensuring 95% seamless navigation and data accessibility across devices.

Finance Application

📅 09/2023 - 11/2023

Finance Application (React Native CLI)

- Developed a financial platform with robust loan management, improving user experience by 40% through performance optimization and scalable features.

SUMMARY

Performance driven React Native Developer with **3+ years** of experience in **iOS & Android app development**. Proficient in **JavaScript (ES6+), TypeScript, Redux, and MobX**, with expertise in **RESTful APIs, offline storage (SQLite, AsyncStorage), animations, and performance optimization**. Skilled in **CI/CD automation, debugging, and profiling**, ensuring **scalable, high-performance mobile solutions** with a **seamless user experience**.

EXPERIENCE

Software Engineer

Courseplay　　📅 12/2023 - Present　📍 Mumbai

A company focused on creating educational technology solutions.

- **Implemented** offline functionality using **SQLite**, ensuring **seamless data access** and reducing app crashes by **30%** in low or no connectivity scenarios.
- **Developed** 10+ reusable theming components, enabling seamless **Dark Mode and Light Mode**, enhancing UX for **500K+ active users**.
- **Monitored** app analytics and performance metrics using **Firebase, Sentry, and New Relic**, proactively identifying and resolving bottlenecks.
- **Built** pixel-perfect UI components with **smooth animations and transitions**, creating a **native-like experience** across **iOS and Android**.
- **Designed and developed** 15+ custom **UI/UX components**, aligning with brand guidelines and enhancing the app's **visual appeal**.
- **Implemented** Redux Toolkit for **efficient state management** and explored alternative solutions like **MobX** for optimized performance.
- **Implemented** rigorous **unit, integration, and end-to-end testing** using **Jest and Detox**, reducing critical bugs by **25%** before production release.
- Configured and maintained **Git repositories**, including branching, merging, and conflict resolution to streamline the development workflow.
- **Deployed** and maintained mobile applications on the **Google Play Store and Apple App Store**, streamlining **CI/CD pipelines** using **Fastlane and GitHub Actions**.
- **Integrated** third-party libraries for **Maps, UI scaling, Secure Storage, Permissions, Navigation, Push Notifications, Localization, Calendar, and Network Analytics**, enhancing **app functionality, performance, and user experience**.
- **Automated app build process using Linux Bash scripting**, streamlining white-label application creation and reducing manual effort by **80%**.

Jr. Software Developer

Plus91 Technologies　　📅 07/2022 - 11/2023　📍 Pune

A technology company providing healthcare software solutions for various industries.

- **Developed and maintained** a **patient health record system** using React, ensuring **99% data security** and efficient storage of sensitive medical information.
- **Integrated** APIs and **parsed JSON/XML data** in collaboration with cross-functional teams, ensuring **seamless backend communication**.
- **Performed** rigorous testing on **healthcare applications**, ensuring **99.9% uptime** and reducing **critical system errors by 25%**.
- **Ensured** 100% **HIPAA compliance** by implementing **robust authentication and encryption**, guaranteeing **top-tier data security** across all applications.
- **Designed and implemented** responsive UI layouts using **Flexbox**, ensuring **seamless rendering** across various devices.
- Integrated **third-party libraries** for features including **Maps, UI scaling, Secure Storage, Permissions, Navigation, Push Notifications, Localization, Calendar, and Network Analytics**.
- Developed **React Native applications** with modern **JavaScript (ES6)** features, ensuring clean, maintainable, and efficient code.
- **Optimized** app performance by implementing **lazy loading, code splitting, and efficient state management**, reducing load times by **40%**.
- **Implemented** offline-first strategies using **SQLite, AsyncStorage, and Redux Persist**, ensuring **seamless data accessibility** in low-connectivity areas.
- **Integrated** RESTful APIs with **efficient caching and background data syncing**, improving **app responsiveness and reducing server load**.
- **Collaborated** with UI/UX designers to create **accessible and platform-specific interfaces**, increasing user engagement.

EDUCATION

Master of Computer Science

Government College of Engineering　📅 07/2020 - 07/2022　📍 Karad

Bachelor in Computer Science

Deccan Education Society　📅 06/2017 - 10/2020　📍 Sangli
